

Silent Mode

ECO+ series heat pumps in silent mode can reach 60% of unit capacity at 36dB(A) level

ECO+ Premium Inverter Swimming Pool Heat Pumps

- WiFi Enabled
- Energy Efficient
- Silent mode
- Eco freindly R32 gas
- Cooling & heating
- Smart Grid ready for home PV systems
- Modbus protocol & RS485 connector
- Advanced system protection

ECO+ Premium Pool Heat Pump

10 year spare part support guarantee

Eco Freindly R32

R32 refrigerant offers a significantly lower Global Warming Potential (GWP) compared to R22, R134A, and R410A, improving heat exchange efficiency and promoting environmental benefits.

Pool system centrized control

ECO+ heat pumps are compatible with all centralized control pool systems using Modbus protocol and RS485 connector

Smart Memory

Power-off memory function restores the ECO+ series to preset parameters after restart

System Protection

ECO+ series heat pumps have more than 10 protection functions including defrost/pressure/temprature/antifreeze to ensure that the unit runs in a long-term healthy state

IOT & APP

App controls and IOT platforms are designed to ensure user ease of operation and reduce equipment maintenance costs

SG-Ready

SG-Ready ensures that ECO+ heat pump uses as much clean energy as possible from the smart grid and stores the energy in the swimming pool. When the smart grid is fully supplied with clean energy, ECO+ heat pumps consume close to zero carbon
